

CAPABILITIES

YOUR SHOW. OUR CREW.

The live event production partner for Washington's agencies, planners and public institutions. Video, LED, audio, cameras and lighting.

Brentwood, MD · Since 2015 · controlvideo.com

Built together.

We join your team early, shape the plan with you, then own the build and the show.

01

Plan it with you

Site visits, drawings and a system plan built around your room, your content and your budget.

02

Build and test it

Every system is prepped and proven in our Brentwood shop before it goes on a truck.

03

Run the show

The crew that built it stays on headset, from first rehearsal to the last cable at strike.

The events we're built for

Five kinds of events make up most of our year. Each asks for something different, and we plan for it from the first call.

01

Galas & conferences

A cue-driven program where every transition is rehearsed.

Show-calling

IMAG

Confidence monitors

02

Corporate & forums

The message lands the same in the room and on the webcast.

4K broadcast chains

Clean press feed

Webcast

03

Festivals & concerts

Multi-stage, outdoor and multi-day, built to hold up to weather and power.

Large-format LED

Fiber backbones

Endurance crews

04

Sporting & activations

Fan zones and sponsor spaces, including sites with no screens until ours roll in.

Daylight-readable

Instant replay

LED trucks

05

Government & civic

Historic and protected spaces. Accessible, security-aware, broadcast-ready.

Accessibility

Secure comms

Overflow screens

Technology we master

We own what we run. Our inventory lives in our shop, maintained by the people who operate it on show day.

01

Display

- LED panels · 8
- LED towers · 2
- Projectors · 3
- Monitors & TVs · 3

02

Control

- Screen management · 4
- Switchers · 3
- Media servers · 6

03

Capture

- Studio camera chains
- Robotics & PTZ
- Jibs & specialty rigs

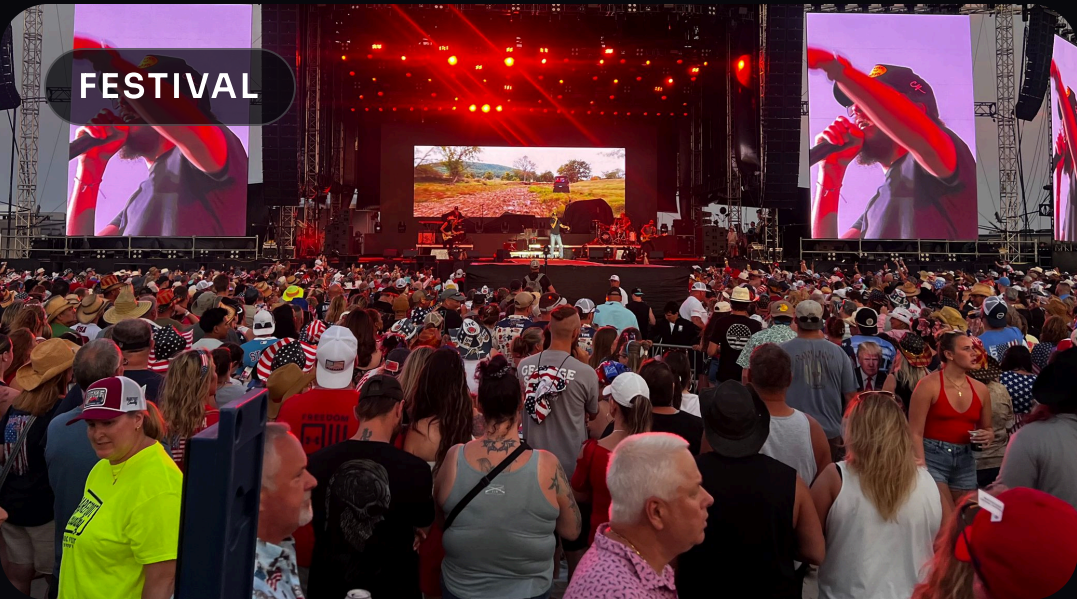

04

Mobile

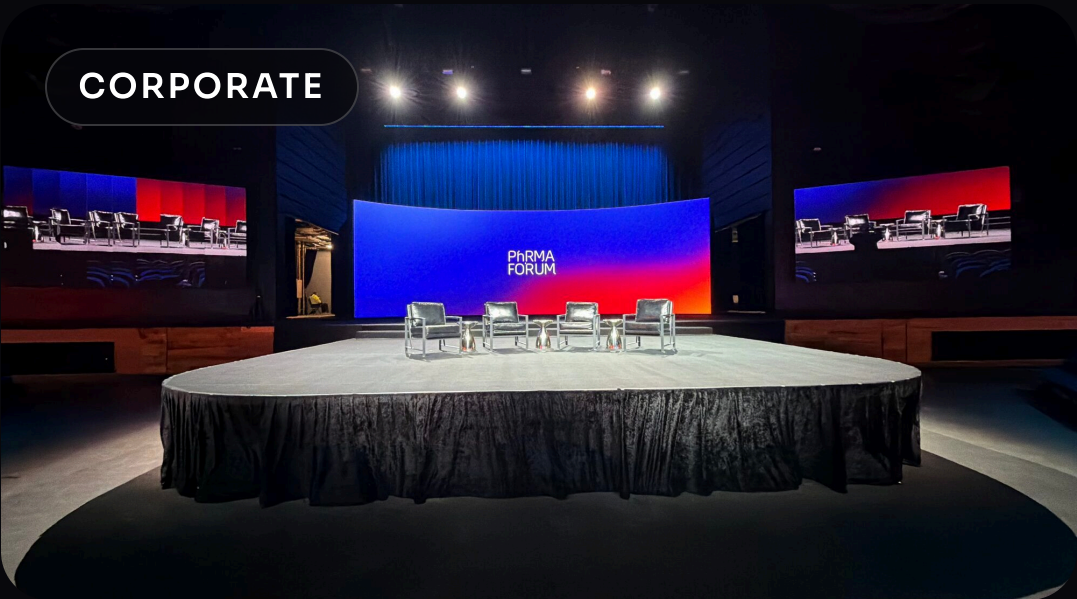

- Flypacks · 2
- LED trucks & trailers · 8
- via LED Truck Co.

Our work

Our clients bring the vision and the audience. We make sure every screen and speaker delivers it.

One image, a mile wide

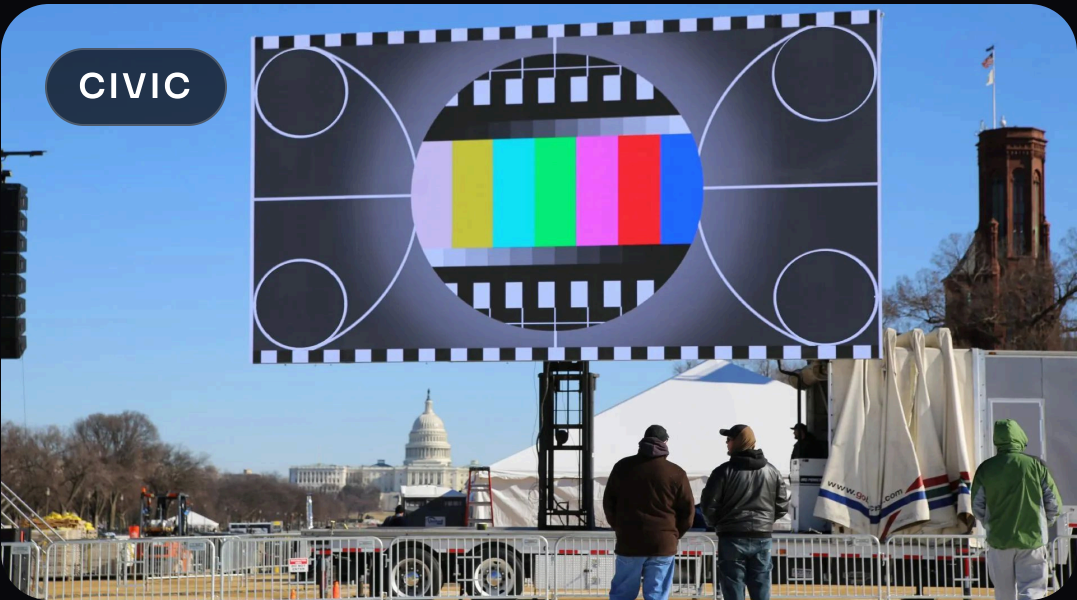

Built for the record

Three days, held steady

Readable in full sun

On the Mall, gone without a mark

A screen for the whole park

From the Mall to the music halls

A few of the places our crews have built and run shows.

- RFK Campus
- Yankee Stadium

Behind your name

Much of our work is for agencies and production companies. We show up as part of your team, and the credit stays with you.

01

Your team, extended

We slot into your production schedule, your comms and your show flow.

02

Your client relationship

We work under your direction and your brand, on site and in every call.

03

One accountable crew

The people who plan the system are the people who run it on show day.

“They found the failure points before we did. That is the whole job.”

Production director, national music festival

OUR SISTER COMPANY

Screens that come to you.

LED Truck Co. runs eight daylight-readable LED trucks and trailers, from a compact trailer to the largest tractor-trailer screen in North America. Same crews, same standard.

Up to 7,000 nits, readable in full sun

Live in as little as 60 minutes

No stage, rigging or truss required

LET'S BUILD YOUR NEXT SHOW.
