

FLEET CATALOG

SCREENS THAT COME TO YOU.

Daylight-readable LED trucks and trailers for sites with no screen, no stage and no time to spare. Rolled in, raised and run by our crew.

A Control Video company · Brentwood, MD · Serving North America

Eight rigs. One standard.

From a compact trailer to the largest tractor-trailer screen in North America, every rig arrives crewed and ready.

01

Daylight-readable

Up to 7,000 nits, so the picture holds up in full sun, not just after dark.

02

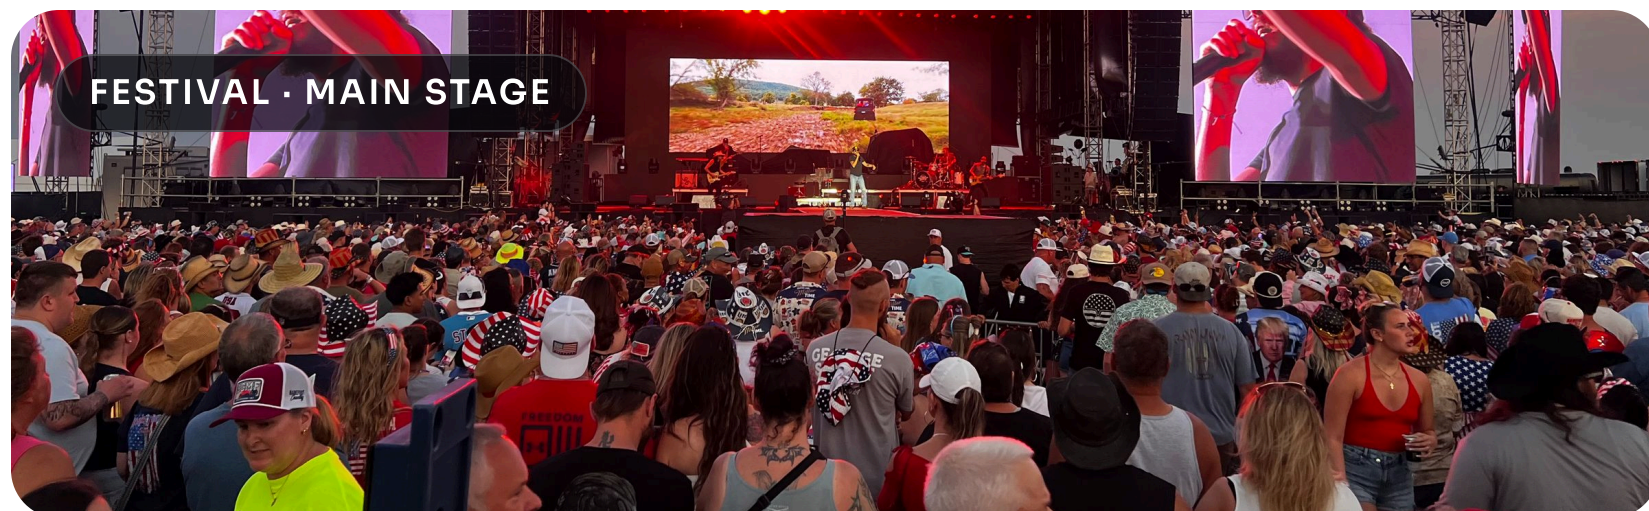

Live in 60 minutes

Every rig sets up in as little as an hour. No stage, rigging or truss required.

03

Crewed by Control Video

The same senior crews who run Washington's built rooms run every truck.

The fleet at a glance

Every rig sets up in as little as 60 minutes. Specs below; detail on the pages that follow.

RIG	TYPE	SCREEN	PIXEL PITCH	BRIGHTNESS	VIEWING DISTANCE	WEIGHT
Jupiter	Tractor-trailer	22' × 42'	8mm	7,000 nits	35'	70,000 lb
